

Release notes

November 2017

All practitioners

- A link, taking you to the 'Manage agency groups' page, has been added to the 'Groups' section of the availability page.
- Agency groups now have an optional field for an internal description that can be found on the 'Manage agency groups' page.
- Headings on the practitioner dashboard screen have been cleaned up.

Adopters and adoption practitioners

- Practitioners connected to an adopter profile (including managers and auto-linked practitioners) can now change the profile's availability.

Commissioning practitioners

- Commissioning practitioners now have the option to resend profile alerts when reusing a child profile.

IFP practitioners in commissioning

- Incoming child profiles can now be marked as "cannot offer placement" by IFPs.
 - Profiles marked in this way will be moved on the IFP's child search page to a new "reviewed" tab.
 - Profiles where a placement has been offered will also be moved to the "reviewed" tab.
 - A new "pending" tab will show all child profiles not yet responded to by the IFP.
- Residential home profiles have a new "organisation" tab containing details about the organisation to which the home belongs.

If you have any questions, suggestions or concerns, please don't hesitate to get in touch via our [contact page](#), or call our support team on 0843 886 0040.
